SUMMARY

Senior Product Designer with 3 years of experience in end-to-end UX: research, systems thinking, visual design, and cross-functional collaboration. Built expertise solving deeply complex problems in enterprise B2B. Skilled at translating user needs into scalable design solutions and pitching design decisions to technical and non-technical stakeholders alike. Excited to apply this foundation to new industries and user contexts.

SKILLS AND TOOLS

Design Strategy & Process: Secondary Research, Stakeholder Interviews, Competitive analysis, Design Thinking, Problem Solving, User-Centered Design (UCD).

Design Execution: Visual Design, Prototyping, Wireframing, UX Writing, Design Handoff & Documentation.

Tools: Figma, Miro, Framer

WORK EXPERIENCE

Siemens

UI / UX designer

April 2023 –Present

Bengaluru, Karnataka

Industrial Edge is Siemens' IIoT platform used by manufacturers across automotive, pharma, and food & beverage industries to manage edge devices and deploy AI-powered applications at scale across factory floors globally

- Owned end-to-end UX across 4 platform surfaces (Hub, Device, Apps, and Management) with primary ownership of the Management platform across Pro and Virtual deployment flavours
- Delivered complete UX journeys from inception to high-fidelity prototypes across 6–8 release trains, collaborating with 10+ cross-functional teams across multiple global locations
- Handled UX writing for all owned flows, maintaining consistency in tone, terminology, and microcopy across a technically complex industrial product
- Conducted implementation reviews against approved mockups to ensure design fidelity and flag deviations before release
- Awarded **Most Valuable Professional** for a release train, recognised for sustained contribution and cross-functional support under delivery pressure
- Voluntarily contributed to the UX Centre of Excellence by organising workshops and design events — including a session with Human Factors International — to promote best practices across teams
- Recognised as **UX Writing Ambassador**, championing microcopy standards and consistent voice across the product.

TECHNICAL COURSES and CERTIFICATIONS

- **Completed UX Career Accelerator Program from GrowthSchool (Most Valuable Player), Jul 2023.**
- Completed UX advanced training by Rishikesh Kulkarni, Jan 2024.
- Completed UX Foundations: Accessibility, Nov 2023.
- Completed Foundations of User Experience (UX) Design by Google, on Coursera, Sept 2022.
